

TECHNICAL SPECIFICATIONS

| | |
|-------------------------|--|
| Application | Analyses the GPS signal to detect crossing on the sensitive area |
| Power supply | 12Vdc, 220 mA (max) |
| Input | Signal from the GPS sensors |
| Connection interface | Analog interface to analyser |
| Setup system parameters | Via Software |
| Weight | 2 Kg |
| Box material | Stainless Steel AISI 304 |
| Working temperature | -30°C - +70°C |
| Dimensions | 130(Ø)x120x130(h) mm |
| Installazione | Suitable for outdoor installation, also in marine environment |
